PUBLIC OBSERVATION AND COVID-19

Observing Central Processes

The Registrar of Voters has developed a comprehensive solution to allow extensive observation. This solution includes cameras and large viewing screens, availability of staff, and physical space to observe. In addition to providing meaningful access for observation, we also are committed to protecting the safety of voters, Registrar of Voters employees, and observers and the privacy and security of ballots and voter information. It is also important that the ability to process ballots can continue efficiently, without disruption.

Priority is placed on our observation process to be very flexible as operations and business needs can change quickly. A limit to the flexibility of this solution is the actual physical space and equipment; for example, there is a finite amount of space to place cameras and viewing monitors, as well as a finite number of cameras.

In-Person Observation

Some observable central processes include:

- Logic and accuracy testing
- Vote-by-Mail processing before, during and after Election Day
- Election night operations
- Post-election canvass
- Signature verification
- Ballot duplication
- Provisional vote processing
- Post-election audits

Monitors will be set up for many of the observable activities, and are designed for in-person observation. Estimates are that at least five members of the public can observe at each monitor, dependent on available space to avoid overcrowding (however, this may be modified at any time due to any safety precautions). The Registrar of Voters will determine the maximum number of observers at one time due to space, equipment constraints and applicable safety precautions.

Remote Observation

Livestreaming is hosted on the Registrar of Voters' website where members of the public can select different options for viewing various operations. Some of the past processes and views offered via livestreaming have included canvass processes and

recount processes. Remote live streaming will not display individual workstations, voter information or signatures.

Members of the public wishing to observe central processes remotely will have the opportunity to do so beginning at 1 p.m., 28 days before the day of the election.

Although there are general remote observation opportunities, no challenges will be accepted remotely for any reason at any time. Challenges must be made in-person onsite at the Registrar of Voters' office in Santa Ana.

Health and Safety Measures

In addition to the rights and responsibilities set forth below, election observers must adhere to any health and safety provisions in place in the county in which the observation occurs.

All election observers shall follow practices that help control and prevent the spread of COVID-19, including daily self-screening at home daily prior to arriving at the observation location. When performing daily self-screening, check for any of the following COVID-19 symptoms:

- Frequent cough
- Fever
- Difficulty breathing
- Chills
- Muscle pain
- Headache
- Sore throat
- New loss of taste or smell

Election observers should stay home if they are experiencing any of the above symptoms. In addition, the observer should stay home if they:

- Feel sick
- Have tested positive for COVID-19
- Exhibiting COVID-19 related symptoms

- The Registrar of Voters will respond to all challenges verbally and timely. If challenges unduly impede or interfere with the work process, challenges shall be discontinued.

Members of the Media

Reporters, camera crews and other members of the media are allowed at Vote Centers and the Registrar of Voters' office as long as they respect voter privacy and do not interfere with or disrupt the voting process.

To ensure the safety and privacy of voters casting their ballots, the media is not permitted to:

- Take close-up pictures or video footage of actual ballots or of voters marking their ballots.
- Film voters dropping off a Vote-by-Mail ballot into a Ballot Drop Box, to a drive-thru drop off team, to Vote Center staff, or Registrar of Voters' staff in the Registrar of Voters' office if the voter communicates to the media that he or she feels intimidated by being filmed.

PRE-ELECTION DAY – GETTING STARTED

Ballot Creation

The public is welcome to view this process. There are no code sections or requirements governing the transparency of this process; however, ballot creation does not begin until the close of filing for candidates, measures, statewide propositions, constitutional amendments, and initiatives that have qualified for the ballot. At that time, we may format, translate, and print the ballot materials which may include:

- (1) The Official Ballot; and
- (2) County Voter Information Guide

How is a Ballot Created?

Ballot Type

Creation of the ballot begins with associating a particular combination of contests with each precinct. This combination is called a “ballot type.” In partisan primary elections, additional ballot types are required for each partisan ballot.

Candidate Order

- The order of candidates on the ballot is determined by a formula based on a randomly ordered alphabet as well as by a “rotation” formula based on the office involved.
- 82 days before the election, the Secretary of State (SOS) conducts a public, random drawing of letters of the alphabet.
- Names of statewide, congressional, countywide, and superior court judicial candidates rotate by assembly district. State senate, assembly, municipal, board of supervisors, and county board of education candidates follow the SOS random alphabet, but do not rotate.

Data Generation

- Ballot type data for every precinct is imported into a database within the Hart InterCivic (Hart) voting system’s BUILD.
- BUILD uses this data to generate ballot styles and audio files.
- The generated styles data is written onto a secure vDrive.
- The vDrive transfers copies of the ballot style data to the Hart system’s Verity Print, TouchWriter, and Scan devices, used at each Vote Center, and transfers cast votes to the system’s Count application that tabulates the votes.

Verity Central

- Verity Central allows the in-house scanning of paper ballots.
- It is used to capture data from paper ballots; the ballots are digitally scanned, imaged, reviewed, and if necessary resolved, and the votes are captured and stored on the vDrive.

General Voting Equipment Preparation and Testing

Each qualified political party, any bona fide association of citizens, or a media organization may employ, and may have present at the central counting place, not more than two representatives to check and review the preparation and operation of the tabulating devices, their programming and testing, and have the representatives in attendance at any or all phases of the election.

The elections official may limit the total number of representatives in attendance to no more than 10 by a manner in which each interested bona fide association of citizens or media organization has an equal opportunity to participate.

Elec. Code §15004

Equipment Testing

- Every piece of voting equipment, including the Verity Touch Writers, Printers, and Scanners goes through service and maintenance before every election.
- The equipment is tested to ensure it powers up, the screen is visible, and that the data is backed up correctly. This also verifies that all the cables are communicating properly.
- Paper is installed in the printers used, and a test page is printed.
- On Verity Scan Devices, the voting system software is reloaded before each election, and verified with the Secretary of State's office that is the trusted build. After Election Day, the voting system software is verified again to ensure it was not modified during the election.

Logic & Accuracy Testing (L&A)

- L&A testing is conducted on the voting system and the voting equipment that will be used in the election.
- L&A is designed to ensure that the hardware and software to be used in an election are working together properly both as individual units and as a combined system.
- Accuracy is tested by casting and tabulating test ballots for which the results are known. We compare the known results to the test results, then resolve the cause of any discrepancies (if any), and re-test.

- Test ballots are selected and marked according to a pre-defined script developed to encompass every contest and choice. Logic testing ensures that the vote tabulation program and hardware correctly interpret, summarize, and report voters' choices.
- Prior to testing, written notice of the test schedule is e-mailed to the media, inviting the public to attend the testing. This information is also posted on the Registrar of Voters' website.
- After test voting is complete, the test results stored on the vDrive are read into the Count application for tabulation.
- If any discrepancies are found, a precinct-by-precinct report is reviewed to locate the erroneous precinct result(s). These are verified against the vote records and the voting script for that precinct to identify the ballot, contest, and option in error.
- Testing and resolution are repeated until no discrepancies occur. Only pieces of voting system equipment that have no discrepancies are used in the election.
- L&A testing is conducted a second time after Election Day to ensure each piece of voting system equipment continues to accurately count the votes on the test ballots.

Pre-definition

- Pre-definition is the process performed on a Vote Center's voting equipment by warehouse personnel where the equipment is electronically assigned ("defined") to a Vote Center.
- The vDrive holds the ballot type data.

Vote-by-Mail (VBM) Ballot Processing

What Can I Observe?

Both before and after the election, observers may view the processing of VBM ballot return envelopes, and the processing and counting of VBM ballots.

Observers will be allowed sufficiently close to observe and challenge whether the individuals handling the ballots are following established procedures.

Observers may not interfere with the orderly processing of ballot return envelopes or the processing and counting of VBM ballots, including touching or handling of the ballots.

Elec. Code §15104(a), 15104(e)

Who Can Observe?

Any member of the county grand jury, and at least one member each of the Republican County Central Committee, the Democratic County Central Committee, any other party with a candidate on the ballot, and any other interested organization may observe and challenge the manner in which the VBM ballots are handled, from the processing of ballot return envelopes through the ballot counting and disposition.

Elec. Code §15104(b)

What Can I Challenge?

A challenge to a voter's eligibility may only be made by a member of the precinct board.

Elec. Code §14240(b), 15105, 15109

Observers may challenge whether members for the precinct board handling VBM ballots are following established procedures, including:

- Verifying signatures by comparing them to voter registration information;
- Duplicating accurately any damaged or defective ballots; and
- Securing VBM ballots to prevent any tampering with them before they are counted on Election Day.

Elec. Code §15104(d)

How Do I Challenge?

When challenging a VBM procedure, and because the voter(s) are not present, the challenger shall have the burden of establishing extraordinary proof of the validity of the challenge at the time the challenge is made.

Elec. Code §15105, 15106

- Challenges may be made verbally or in writing.
- Challenge Forms are available for those wishing to submit their challenge in writing.
- Responses to challenges will be provided verbally and timely.
- All challenges received by the Registrar of Voters will be added to a log. The challenge log and all challenge forms for an election will be preserved with other materials for that election.

Taking pictures, video, or use of phones/cameras for the purpose of challenging is not permitted at any time.

How are VBM Ballots Collected?

Teams of two trained staff members collect VBM ballots daily from the U.S. Postal Service and more than 120 OCROV Ballot Drop Boxes throughout the county.

- Strict chain of custody procedures are followed.
- Ballot collection teams are tracked via GPS and are communicating continually with dispatch on radios.
- Teams transmit photos of each Ballot Drop Box they open.
- Routes vary daily for staff and ballot safety.

How Are VBM Ballots Processed?

Ballot Receiving

When VBM ballots collected from the United States Postal Service and OCROV Ballot Drop Boxes or dropped off by voters at Vote Centers are returned to OCROV's office in Santa Ana, the chain of custody documents are verified.

- Ballot collection bags are audited.
- Security seals and chain of custody documents are verified.
- Ballots are kept separate and organized by United States Postal Service, Ballot Drop Box and Vote Center in a secure area.
- Chain of custody documents are retained.

Ballot Sorting

- VBM ballot envelopes are scanned and sorted for signature verification while remaining sealed.
- An image is taken of each envelope so the signature can be compared to the voter's registration.
- First pass through the sorter triggers an OC Ballot Express notification that the ballot has been received.
- Once the signature is verified, envelopes are sorted and grouped by precinct.
- Returned ballots that are challenged are separated into groups for further review.

Signature Verification

- Beginning 29 days prior to the election, OCROV staff may begin processing the returned VBM envelopes.

- OCROV staff verifies the voter’s signature on the outside of the envelope and updates the voter’s history to record that the voter has returned a VBM ballot in the current election.
- OCROV staff verifies the signature by comparing it to the one on the voter’s affidavit of registration. Only the elections staff member may perform this comparison.

Elec. Code §3019
CCR, Title 2, Div. 7, Chapter 8.3

Removing the Ballots and Preparing Them for Counting

- Beginning 29 days before Election Day, OCROV staff may remove the ballots from the signature-verified envelopes and prepare them to be machine-read; however, OCROV staff may not access or release a vote count until the polls have closed on election night.
- Ballots are separated from the bar-coded envelopes, so the voter is no longer identifiable.
- OCROV staff assigned to VBM boards manually unfold, flatten, and inspect the VBM ballots, keeping them grouped by precinct.
- VBM boards review ballots for initials, signatures, and those damaged that cannot be scanned.
- Damaged ballots are duplicated by OCROV staff.
- Ballots ready to be scanned are staged for ballot scanning and ballot resolution.
- Envelopes are further reviewed to ensure all ballots have been removed.

Elec. Code §15101

Duplicating Ballots

When original ballots are damaged or not marked properly, they need to be duplicated in order to be scanned into the voting system.

- Ballots requiring duplication are received from the VBM boards.
- Ballots are duplicated by hand or by an electronic ballot marking device, marking exactly what was selected from the original ballot.
- Original ballots are labeled “ORIGINAL” and duplicate ballots are labeled “DUPLICATE.”
- Each set of ballots will be numbered and logged.
- The original and duplicate ballots are compared to ensure accuracy of votes.
- Duplicated ballots are taken to be scanned, and the original ballots are securely stored.

Scanning Ballots

- Ballots are brought into the secure ballot scanning room to be processed.

- The ballots are placed into batches of about 100 and scanned into the system.
- If the batch is scanned successfully, the operator saves the batch and attaches a scan batch report.
- If the batch is not scanned successfully, the batch is not saved, and the batch is re-scanned.
- If a batch has a rejected ballot, that ballot is removed from the batch and re-scanned.
- The scanned batches remain in a secure location throughout the entire election and canvass period.
- At the end of the canvass period, the batches are secured in a sealed box for storage and retained for the period prescribed by law.

Resolving Ballots

- Resolution is the process of determining voter intent when the vote is categorized as an under-vote, over-vote, write-in, or a damaged vote target area.
- OCROV staff uses Verity Central “Auto Resolve” automatic resolution function only for undervotes.
- For all resolution activity, OCROV staff reviews the ballot image and resolves the ballot until it can be accepted and recorded. Staff follows the Uniform Vote Counting Standards contained in Title 2 of the California Code of Regulations sections 20980 through 20985.
- When resolutions are complete, records are saved to be accumulated into the tabulation of other vote results after 8 p.m. on Election Day.

Tallying Ballots

Only after VBM ballots have been verified, resolved, and recorded, may they be counted and canvassed.

Elec. Code §15109

After ballots are scanned either centrally for VBM ballots, or in-person at the Vote Centers, the ballots are saved onto a vDrive and brought into the tally room to be tabulated.

- The machines used to tabulate the votes are re-imaged before each election with the software certified by the California Secretary of State.
- The software is verified before and after each election to ensure it has not been tampered with.
- The tabulation machines are not connected to the internet, or any outside network.
- Access to this room is limited and has additional levels of physical security controls.

VOTE CENTER OPERATIONS

Hours of Operations

Vote Center staff arrives onsite 30 minutes before Vote Centers are scheduled to open.

Select Vote Centers:

Beginning 10 days before the day of the Election and continuing daily until 4 days before the Election, select Vote Centers are open from 8 a.m. to 5 p.m.

All Vote Centers:

Beginning 3 days before the day of the Election and continuing daily until the day before the Election, all Vote Centers are open from 8 a.m. to 8 p.m.

On Election Day all Vote Centers are open from 7 a.m. to 8 p.m.

For a list of Vote Center locations and hours visit, ocvote.gov/votecenter

Opening Vote Centers

Polls open on the first day that voting will occur. The open polls report will print. Vote Centers will suspend and reopen every day after the first day until Election Day.

When the first voter arrives only on the first day of opening, the zero report and open polls report will be connected and torn off as one long report. Thereafter, polls report will be printed, torn off and added to the daily envelope at Vote Centers.

Closing Vote Centers

If there is a line of voters when the polls close at 8 p.m., one Vote Center staff member will stand at the end of the line politely explaining to voters who arrive in line after the closing time that the polls are closed. Voters who were in line before the polls close will be permitted to vote.

After all voters who arrived before the polls closed are able to vote, Vote Center personnel will print the suspend polls report, tear it off, and add it to the daily envelope. Vote Center staff reconcile the number of paper ballot sheets to the number of ballot sheets scanned; in the event of a discrepancy the Registrar of Voters office is alerted, and the discrepancy will be investigated. Registrar of Voters staff also reconcile the number of ballots counted, spoiled, canceled, or invalidated due to

identifying marks, over-votes, or as otherwise provided by statute, with the number of votes recorded, including VBM and provisional ballots, by the vote counting system. On Election Night, Vote Center personnel will close the polls instead of suspending polls. All ballots will be returned to the Collection Center every evening.

Street Index

A street index is an electronic list of voters eligible to vote in the election that is updated regularly to indicate which voters have cast a ballot. The street index is posted on the Registrar of Voters website as required by California Elections Code section 14294(b). As the street index contains confidential voter registration information, access is limited to those observers who complete an Application for Voter Registration Information.

To view the street index, please visit ocvote.gov/streetindex, fill out the form on the website and return it in person or by mail. Following approval, you will receive login instructions to access the street index online.

Language Assistance under the Voting Rights Act and California Elections Code

Orange County is required by Section 203 of the Federal Voting Rights Act to provide translated materials and language assistance in the following languages:

- Chinese
- Korean
- Spanish
- Vietnamese

Orange County provides translated ballots in Chinese, Korean, Spanish, and Vietnamese. If a voter marked a preferred, Section 203 language when registering to vote, they will receive their translated election materials. If a voter prefers to vote in-person and wants a ballot in a preferred language, they must request it at a Vote Center.

Section 14201 of the California Elections Code also requires that a facsimile ballot (also known as translated reference ballots) be posted in other languages determined by the Secretary of State.

POST-ELECTION DAY – COUNTING THE VOTES

Observation

- Any member of the public may observe all proceedings at the central counting place, but no person, except one employed and designated for the purpose by the elections official or his authorized deputy, shall touch any ballot container, and access to the area where electronic data processing equipment is being operated may be restricted to persons authorized by the elections official.
- For the manual tally of paper ballots during the audits, the ballot being read, and the tally sheet shall be within the clear view of the observers.

Elec. Code §15204

Work Area Requirements

- Observers may enter the ballot canvass work area ONLY during canvass operations, and remain in the areas designated for public viewing.
- Inside the ballot canvass work area, no phone calls may be sent or received, electronic devices may not be used, and no conversations are allowed.
- Election Observers may get close enough to observe the information on the workstation, which is provided on monitors for your viewing. All questions about content or procedures must be submitted in writing or directed to the designated Observation Ambassador at the Registrar of Voters' office.
- Election Observers may take notes during the process but may not record any voter's personal identifying or contact information. The Registrar of Voters reserves the right to read an observer's notes prior to exiting the building.

Phases

The canvass proceeds in phases, all of which are open to the public:

- Semifinal Official Results;
- Official Canvass;
- One Percent Manual Tally;
- Risk Limiting Audits;
- Sealing and Disposition of Ballots; and
- Certification, Statement of the Votes Cast, and Certificates of Election.

Elec. Code §15302

Semifinal Official Results

- On election night, immediately upon the closing of the polls at 8 p.m. and continuing without adjournment until all Vote Centers are accounted for,

OCROV staff collects, resolves, and tallies all the votes cast at the Vote Center and the VBM ballots received prior to Election Day that have been accepted for counting. VBM ballots received on and after Election Day are included in subsequent result updates.

- Beginning at 8:05 p.m. on election night, OCROV releases the results of this tally to the public and to the Secretary of State, reported by contest and by precinct. Vote results are considered unofficial until the elections official completes the official canvass.
- The distribution of semifinal official election results will commence at 8:05 p.m. Once Vote Center results begin arriving, results are updated at 9:30 p.m. and every 30 minutes thereafter until all Vote Centers have been reported.

Elec. Code §353.5, 15150-15213, 15320

Official Canvass

In this phase OCROV staff audits and accounts for all ballots that were issued, voted, and those that were not used. This phase includes, but is not limited to, the following tasks:

- Inspect all materials and supplies returned by Customer Service Representatives.
- Process and count any valid VBM and provisional ballots not included in the semifinal official canvass.
- Count any valid write-in votes.
- Duplicate any damaged ballots, if necessary.
- Report final results to the governing board and the Secretary of State, as required.

Elec. Code §15302

Conditional Voter Registration/Provisional Ballots

Conditional Voter Registration (CVR) extends the existing 15-day registration deadline in California to eligible voters, allowing them to register and vote provisionally 14 days prior to an election and on Election Day. Voters that complete this process must cast their provisional ballot at the Vote Center and cannot leave the Vote Center with their ballot and return it at a later time.

Voters that are not registered by the deadline must be processed using a CVR.

CVR Procedures

- The voter must execute, in the presence of an elections official, the written affirmation stating that the voter is eligible to vote and registered in the county where the voter desires to vote.

- Once voted, the ballot is sealed in a provisional ballot envelope for return to the elections official.
- The provisional ballot of a voter who is otherwise entitled to vote shall not be rejected because the voter did not cast his or her ballot in the voter's assigned precinct.
- Due to the use of the Statewide Voter Registration Database's real time exchange of voter history, provisional ballots can be reviewed and verified at any time during the voting and canvass periods, while preventing double voting.
- Provisional ballots are examined, verified, and processed much in the same way as VBM ballots. Each ballot is reviewed and researched before being accepted for counting considering the following: (1) valid signature; (2) current county voter registration; (3) prior county voter registration; (4) current registration address versus new address; (5) whether a VBM or provisional or precinct ballot was returned; and (6) the precinct where the ballot was cast.
- If the provisional voter is eligible to vote, the elections official must then determine which contests may be voted. If the voter is eligible to vote in all the contests on the voted ballot, then the ballot is processed in the same manner as a VBM ballot; but, if the voter was only eligible to vote in some of the contests, the eligible portion of the ballot is duplicated on a new paper ballot and the duplicate ballot is processed like a VBM ballot. If the ballot has been voted electronically and determination has been made that it can be counted, those votes will be tallied. If the ballot can only be partially counted, only those contests eligible to be voted will be tallied.

Elec. Code §14310-14312

CCR Title 2, Div. 7, Chapter 1, Article 3.5, Sec. 20020

One Percent Manual Tally

The One Percent Manual Tally is a post-election audit performed before certifying the election to ensure the accuracy of the election results.

- During the official canvass of every election in which a voting system is used, the official conducting the election shall conduct a public manual tally of the ballots tabulated by those devices, including VBM ballots.
- The elections official shall use either a random number generator or other method specified in regulations that shall be adopted by the Secretary of State to randomly choose the initial one percent of precincts in the county or batches of VBM ballots subject to the public manual tally. The random draw is public and observable.
- If the initial one percent of precincts in the county does not capture every contest on the ballot, additional precincts are randomly drawn to ensure the all contests are included in the manual tally audit.
- The manual tally shall be a public process, with the official conducting the election providing at least a five-day public notice of the time and place of the

manual tally and of the time and place of the selection of the precincts or batches subject to the public manual tally before conducting the selection and tally.

- A team of four tally board members hand count and manually tally each ballot following the California Uniform Vote Counting Standards
 - 1 Caller reads the votes
 - 1 Observer ensures the accuracy of the tally
 - 2 Tickers tally the votes using tally sheets
- The official conducting the election shall include a report on the results of the one percent manual tally in the certification of the official canvass of the vote. This report shall identify any discrepancies between the voting system count and the manual tally and a description of how each of these discrepancies was resolved.

Elec. Code § 15360

Risk-Limiting Audits

The Risk-Limiting Audit (RLA) is conducted as an additional measure that verifies the outcome of the election is accurate. It is not mandated by California law.

- A public draw is conducted to generate a 20-digit random seed number. Ballots are selected for the audit using the random seed number to reach a 95% confidence level that the outcome is correct. The random draw is public and observable.
- A RLA shall be conducted on one or more contests fully contained within the county's borders. Commencement of the audit and selection of ballots for the audit shall not occur before the reporting of the results to which the contests are being audited.
- The RLA shall be a public and observable process, with the election's official providing at least a five-day public notice of the time and place of both the risk-limiting audit and the selection of the ballots to be used when conducting the risk-limiting audit.
- The RLA compares individual ballots to the cast vote record, ensuring the ballot was counted as intended by the voter. A four-person RLA board conducts the manual examination of ballots following the California Uniform Vote Counting Standards.
- The elections official conducting the RLA shall publish a report on the results of the RLA in the certification of the official canvass of the vote.
- The audit continues until all selected ballots have been audited and/ or the 95% confidence level has been reached.

- (b)Any member of the county grand jury, and at least one member each of the Republican county central committee, the Democratic county central committee, and of any other party with a candidate on the ballot, and any other interested organization, shall be permitted to observe and challenge the manner in which the VBM ballots are handled, from the processing of VBM ballot return envelopes through the counting and disposition of the ballots.
- (c)The elections official shall notify VBM voter observers and the public at least 48 hours in advance of the dates, times, and places where VBM ballots will be processed and counted.
- (d)Notwithstanding paragraph (2) of subdivision (b) of Section 2194, vote by mail voter observers shall be allowed sufficiently close access to enable them to observe the vote by mail ballot return envelopes and the signatures thereon and challenge whether those individuals handling vote by mail ballots are following established procedures, including all of the following:
- (1) Verifying signatures on the Vote-by-Mail ballot return envelopes by comparing them to voter registration information;
 - (2) Duplicating accurately any damaged or defective ballots;
 - (3) Securing VBM ballots to prevent any tampering with them before they are counted on election day.
- (e)A VBM voter observer shall not interfere with the orderly processing of VBM ballot return envelopes or processing and counting of VBM ballots, including touching or handling of the ballots.
15105. Challenges to a vote by mail voter may be made for the same reasons as those made against a voter voting at a polling place. In addition, a

challenge may be entered on the grounds that the ballot was not received within the time provided by this code or that a person is currently serving a state or federal prison term for the conviction of a felony. All challenges shall be made prior to the opening of the identification envelope of the challenged vote by mail voter.

15106. Except as otherwise provided, the processing of VBM ballot return envelopes, the processing and counting of VBM ballots, and the disposition of challenges of VBM ballots shall be according to the laws now in force pertaining to the election for which they are cast. Because the voter is not present, the challenger shall have the burden of establishing extraordinary proof of the validity of the challenge at the time the challenge is made.
15109. Except as otherwise provided in this chapter, the counting and canvassing of VBM ballots shall be conducted in the same manner and under the same regulations as used for ballots cast in a precinct polling place.
15110. Reports to the Secretary of State of the findings of the canvass of VBM ballots shall be made by the elections official pursuant to Chapter 3 (commencing with Section 15150) and Chapter 4 (commencing with Section 15300).
15111. The elections official shall keep an accurate list of all voters who have received and voted a VBM ballot at each election and compare this list with the roster of voters as provided in Section 15278. That list shall include the election precinct of the voter.
15112. When elections are consolidated pursuant to Division 10 (commencing with Section 10000), and only one form of ballot is used at the consolidated election, the ballots cast by VBM voters shall be counted only in connection with elections to which VBM voter privileges have been extended bylaw.

Whenever the period of time within which VBM voters' ballots shall be received by the elections official in order to be counted, as provided for any election by this code or any other law of this state, is different from that period of time provided for another election, and the elections are consolidated and only one form of ballot used for both elections, all VBM voters' ballots issued for the consolidated election may be counted for both elections if received by the elections official within whichever period of time is longer.

Canvass – One Percent Manual Tally

15360.

(a) During the official canvass of every election in which a voting system is used, the elections official shall conduct a public manual tally of the ballots tabulated by those devices, including vote by mail ballots, using either of the following methods:

(1) (A) A public manual tally of the ballots canvassed in the semifinal official canvass, including vote by mail ballots but not including provisional ballots, cast in 1 percent of the precincts chosen at random by the elections official. If 1 percent of the precincts is less than one whole precinct, the tally shall be conducted in one precinct chosen at random by the elections official.

(B) (i) In addition to the 1 percent manual tally, the elections official shall, for each race not included in the initial group of precincts, count one additional precinct. The manual tally shall apply only to the race not previously counted.

(ii) The elections official may, at the elections official's discretion, select additional precincts for the manual tally, which may include vote by mail and provisional ballots.

(2) A two-part public manual tally, which includes both of the following:

(A) A public manual tally of the ballots canvassed in the semifinal official canvass, not including vote by mail or provisional ballots, cast in 1 percent of the precincts chosen at random by the elections official and conducted pursuant to paragraph (1).

(B) (i) A public manual tally of not less than 1 percent of the vote by mail ballots canvassed in the semifinal official canvass. Batches of vote by mail ballots shall be chosen at random by the elections official.

(ii) For purposes of this section, a "batch" means a set of ballots tabulated by the voting system devices, for which the voting system can produce a report of the votes cast.

(iii) (I) In addition to the 1 percent manual tally of the vote by mail ballots, the elections official shall, for each race not included in the initial 1 percent manual tally of vote by mail ballots, count one additional batch of vote by mail ballots. The manual tally shall apply only to the race not previously counted.

(II) The elections official may, at the elections official's discretion, select additional batches for the manual tally, which may include vote by mail and provisional ballots.

(b) The elections official shall use either a random number generator or other method specified in regulations that shall be adopted by the Secretary of State

to randomly choose the initial precincts, batches of vote by mail ballots, or direct recording electronic voting machines subject to the public manual tally.

(c) The elections official shall not randomly choose the initial precincts or select an additional precinct for the manual tally until after the close of the polls on election day.

(d) The manual tally shall be a public process, with the official conducting the election providing at least a five-day public notice of the time and place of the manual tally and of the time and place of the selection of the precincts, batches, or direct recording electronic voting machines subject to the public manual tally before conducting the selection and tally.

(e) The elections official shall include a report on the results of the 1 percent manual tally in the certification of the official canvass of the vote. This report shall identify any discrepancies between the machine count and the manual tally and a description of how each of these discrepancies was resolved. In resolving a discrepancy involving a vote recorded by electronic or electromechanical vote tabulating devices, the voter verified paper audit trail shall govern if there is a discrepancy between it and the electronic record.

Challenging a Voter

14240. (a) A person offering to vote may be orally challenged within the polling place only by a member of the precinct board upon any or all of the following grounds:

- (1) That the voter is not the person whose name appears on the roster.
- (2) That the voter is not a resident of the precinct, or in an election conducted using a voter center, not a resident of the county.
- (3) That the voter is not a citizen of the United States.
- (4) That the voter has voted in that election.

(b) A person, other than a member of a precinct board or other official responsible for the conduct of the election, shall not challenge or question any voter concerning the voter's qualifications to vote.

(c) If any member of a precinct board receives, by mail or otherwise, any document or list concerning the residence or other voting qualifications of any person or persons, with the express or implied suggestion, request, or demand that the person or persons be challenged, the board member shall first determine whether the document or list contains or is accompanied by evidence constituting

probable cause to justify or substantiate a challenge. In any case, before making any use whatever of such a list or document, the member of the precinct board shall immediately contact the elections official, charged with the duty of conducting the election, and describe the contents of the document or list and the evidence, if any, received bearing on voting qualifications. The elections official shall advise the members of the precinct board as to the sufficiency of probable cause for instituting and substantiating the challenge and as to the law as herein provided, relating to hearings and procedures for challenges by members of the precinct board and determination thereof by a precinct board. The elections official may, if necessary, designate a deputy to receive and answer inquiries from precinct board members as herein provided.

14241. A piece of mailed matter returned undelivered by the post office shall not be accepted or used as evidence upon which to initiate a challenge as to residency by any member of the precinct board unless other evidence or testimony is also presented, nor shall the mailed matter, standing alone without other evidence or testimony, be accepted as evidence by the precinct board in determining a challenge.
14242. The ground for challenge set forth in paragraph (2) of subdivision (a) of Section 14240 shall not apply to any person duly registered as a voter in any precinct in California and moving from that precinct within 14 days prior to an election.
14243. If the challenge is on the ground that the person seeking to vote is not the person whose name appears on the roster, a member of the precinct board shall tender the following oath: "You do swear (or affirm) that you are the person whose name is entered on the roster."
14244. If the challenge is on the ground that the person seeking to vote is not a resident of the precinct, or in an election conducted using a Vote Center, not a resident of the County, the person challenged shall be sworn to answer questions, and after having been sworn, a member of the precinct board shall ask that person: "Are you a resident of this precinct?" or in an election conducted using a Vote Center, "Are you a resident of the County?" If the answer to the question is "Yes," without significant qualification, no other questions shall be asked.
14245. If the challenge is on the ground that the person challenged has already cast a ballot for this election, a member of the precinct board shall tender to the person challenged this oath: "You do swear (or affirm) that

you have not previously voted in this election, either by VBM ballot or at a polling place."

14246. If the challenge is on the ground either that the person challenged is not the person whose name appears on the roster, or that he or she has voted that day, the challenge shall be determined in favor of the person challenged if that person takes the oath as set forth either in Section 14243 or 14245.
14247. Challenges of voters that they are not residents of the precinct or citizens of the United States shall be tried and determined by the precinct board at the time of the challenge. The precinct board may, at its discretion, also request any other person, present in the polling place to be sworn and answer questions, whom the board believes may have knowledge or information concerning the facts of the challenge.
14248. Before administering an oath to a person regarding his or her place of residence, a member of the precinct board shall read to the person challenged, the rules prescribed by Section 14249 and Article 2 (commencing with Section 2020) of Chapter 1 of Division 2.
14249. If any person challenged refuses to take the oaths tendered, or refuses to be sworn and to answer the questions concerning the matter of residence, that person shall not be allowed to vote.
14250. The precinct board, in determining the place of residence of any person, shall be governed by the rules set forth in Article 2 (commencing with Section 2020) of Chapter 1, Division 2.
14251. Any doubt in the interpretation of the law shall be resolved in favor of the challenged voter.
14252. The precinct board shall compile a list showing all of the following:
- (a) The name and address of each person challenged.
 - (b) The name, address, and any other identification as a voter, of each person offering information concerning any person's qualifications to vote, or testifying pursuant to Section 14247, together with the name and address and any other identification of the person about whom the information or testimony is given.
 - (c) The grounds of each challenge.
 - (d) The determination of the board upon the challenge, together with any written evidence pertaining thereto.

(e) If evidence has been presented to the board requesting challenges, the evidence shall be returned to the elections official responsible for the conduct of the election.

14253. In the event that the precinct board determines that persistent challenging of voters is resulting in a delay of voting sufficient to cause voters to forego voting because of insufficient time or for fear of unwarranted intimidation, the board shall discontinue all challenges, and so note on the roster.

Provisional Ballots

14310. (a) At all elections, a voter claiming to be properly registered, but whose qualification or entitlement to vote cannot be immediately established upon examination of the roster for the precinct or upon examination of the records on file with the county elections official, shall be entitled to vote a provisional ballot as follows:
- (1) An elections official shall advise the voter of the voter's right to cast a provisional ballot.

(2) The voter shall be provided a provisional ballot, written instructions regarding the process and procedures for casting the ballot, and a written affirmation regarding the voter's registration and eligibility to vote. The written instructions shall include the information set forth in subdivisions (c) and (d).

(3) The voter shall be required to execute, in the presence of an elections official, the written affirmation stating that the voter is eligible to vote and registered in the county where the voter desires to vote.

(b) Once voted, the voter's ballot shall be sealed in a provisional ballot envelope, and the ballot in its envelope shall be deposited in the ballot box. All provisional ballots voted shall remain sealed in their envelopes for return to the elections official in accordance with the elections official's instructions. The provisional ballot envelopes specified in this subdivision shall be of a color different than the color of, but printed substantially similar to, the envelopes used for vote by mail ballots, and shall be completed in the same manner as vote by mail envelopes. (c)

(1) During the official canvass, the elections official shall examine the records with respect to all provisional ballots cast. Using the procedures that apply to the comparison of signatures on vote by mail ballots pursuant to Section 3019, the elections official shall compare the signature on each provisional ballot envelope with the signature on the voter's affidavit of registration or other signature in the voter's registration record. If the signatures do not compare or the provisional ballot envelope is not signed, the ballot shall be rejected. A variation of the signature caused by the substitution of initials for the first or middle name, or both, shall not invalidate the ballot.

(2) (A) Provisional ballots shall not be included in any semiofficial or official canvass, except under one or more of the following conditions:

(i) The elections official establishes prior to the completion of the official canvass, from the records in his or her office, the claimant's right to vote. (iii) Upon the order of a superior court in the county of the voter's residence. (B) A voter may seek the court order specified in this paragraph regarding his or her own ballot at any time prior to completion of the official canvass. Any judicial action or appeal shall have priority over all other civil matters. A fee shall not be charged to the claimant by the clerk of the court for services rendered in an action under this section.

(3) The provisional ballot of a voter who is otherwise entitled to vote shall not be rejected because the voter did not cast his or her ballot in the precinct to which he or she was assigned by the elections official.

(A) If the ballot cast by the voter contains the same candidates and measures on which the voter would have been entitled to vote in his or her assigned precinct, the elections official shall count the votes for the entire ballot.

(B) If the ballot cast by the voter contains candidates or measures on which the voter would not have been entitled to vote in his or her assigned precinct, the elections official shall count only the votes for the candidates and measures on which the voter was entitled to vote in his or her assigned precinct.

(d) The Secretary of State shall establish a free access system that any voter who casts a provisional ballot may access to discover whether the voter's provisional ballot was counted and, if not, the reason why it was not counted.

(e) The Secretary of State may adopt appropriate regulations for the purpose of ensuring the uniform application of this section.

(f) This section shall apply to any vote by mail voter described by Section 3015 who is unable to surrender his or her unvoted vote by mail voter's ballot. (g) Any existing supply of envelopes marked "special challenged ballot" may be used until the supply is exhausted

14311. (a) A voter who has moved from one address to another within the same county and who has not re-registered to vote at that new address may, at his or her option, vote on the day of the election at the polling place at which he or she is entitled to vote based on his or her current residence address, or at the office of the county elections official or other central location designated by that elections official. The voter shall be re-registered at the place of voting for future elections.

(b) Voter's casting ballots under this section shall be required to vote by provisional ballot, as provided in Section 14310.

14312. This article shall be liberally construed in favor of the provisional voter.

15350. Provisional ballots cast pursuant to Section 14310 shall be processed and counted in accordance with the provisions outlined in Chapter 2 (commencing with Section 15100) and pursuant to the requirements of Sections 14310 and 14311.

Recounts

15620. (a) Following completion of the official canvass, any voter may, within five days thereafter but not later than 5 p.m. on the fifth day, file with the elections official responsible for conducting an election in the county wherein the recount is sought a written request for a recount of the votes

cast for candidates for any office, for slates of presidential electors, or for or against any measure, if the office, slate, or measure is not voted on statewide. The request shall specify on behalf of which candidate, slate of electors, or position on a measure (affirmative or negative) it is filed.

(b) If an election is conducted in more than one county, the request for the recount may be filed by any voter within five days but not later than 5 p.m. on the fifth day, beginning on the 31st day after the election, with the elections official of, and the recount may be conducted within, any or all of the affected counties.

(c) For the purposes of this section, “completion of the official canvass” shall be presumed to be that time when the elections official signs the certified statement of the results of the election except that, in the case of a city election, if a city council canvasses the returns itself and does not order the elections official to conduct the canvass, “completion of the official canvass” shall be presumed to be that time when the governing body declares the persons elected or the measures approved or defeated.

15621. (a) Following completion of the official canvass any voter may, within five days beginning on the 31st day after a statewide election, file with the Secretary of State a written request for a recount of the votes cast for candidates for any statewide office or for or against any measure voted on statewide. The request filed pursuant to this section shall specify in which county or counties the recount is sought and shall specify on behalf of which candidate, slate of electors, or position on a measure (affirmative or negative) it is filed.

(b) The Secretary of State shall forthwith send by registered mail one copy of the request to the elections official of each county in which a recount of the votes is sought. (c) All the other provisions of this article shall apply to recounts conducted under this section.

15622. The request may specify the order in which precincts shall be recounted.

15623. Any time during the conduct of a recount and for 24 hours thereafter, any other voter may request the recount of any precincts in an election for the same office, slate of presidential electors, or measure not recounted as a result of the original request.

15624. The voter or the campaign committee, as defined in Section 82013 of the Government Code, represented by the voter filing the request seeking the recount shall, before the recount is commenced and at the beginning of

each day following, deposit with the elections official a sum as required by the elections official to cover the cost of the recount for that day. The money deposited shall be returned to the depositor if, upon completion of the recount, the candidate, slate of presidential electors, or the position on the measure (affirmative or negative) for which the declaration is filed is found to have received the plurality of votes cast which it had not received according to the official canvass or, in an election where there are two or more candidates, the recount results in the candidate for whom the recount was requested appearing on the ballot in a subsequent runoff election or general election who would not have so appeared in the absence of the recount. The depositor shall be entitled to the return of any money deposited in excess of the cost of the recount if the candidate, slate, or position on the measure has not received the plurality of the votes cast or, in an election where there are two or more candidates, the recount does not result in the candidate for whom the recount was requested appearing on the ballot in a subsequent runoff or general election as a result of the recount. Money not required to be refunded shall be deposited in the appropriate public treasury.

15625. The recount shall be conducted under the supervision of the elections official by special recount boards consisting of four voters of the county appointed by the election's official. Each member of a recount board shall receive the same compensation per day as is paid in the jurisdiction within which the recount is being conducted to members of precinct boards, other than inspectors, to be paid out of the appropriate public treasury. If the office of the election's official is the subject of the recount, the governing body shall appoint an officer, other than the elections official, to appoint and supervise the special recount boards.
15626. The recount shall be commenced not more than seven days following the receipt by the election's official of the request or order for the recount under Section 15620 or 15621 or 15645, and shall be continued daily, Saturdays, Sundays, and holidays excepted, for not less than six hours each day until completed. The recount shall not be commenced until the first day following notification of the individuals specified in Section 15628.
15627. (a) If the votes subject to recount were cast or tabulated by a voting system, the voter requesting the recount shall, for each set of ballots cast or tabulated by a type of voting system, select whether the recount shall be conducted manually, or by means of the voting system used originally. Only one method of recount may be used for all ballots cast or tabulated by the same type of voting system. (b) For purposes of direct recording electronic voting systems, "conducted manually" means that the voter

verified paper audit trail of the electronically recorded vote is counted manually, as selected by the voter who requests the recount.

15628. Not less than one day prior to commencement of the recount, the elections official shall post a notice as to the date and place of the recount and shall notify the following persons of it in person or by any federally regulated overnight mail service:
- (a) All candidates for any office the votes for which are to be recounted.
 - (b) Authorized representatives of presidential candidates to whom electors are pledged if the votes to be recounted were cast for presidential electors.
 - (c) Proponents of any initiative or referendum or persons filing ballot arguments for or against any initiative, referendum, or measure placed on the ballot by the governing body the votes for which are to be recounted.
 - (d) The Secretary of State in the case of a recount of the votes cast for candidates for any state office, presidential electors, the House of Representatives of the United States, the Senate of the United States, or delegates to a national convention or on any state measure.
15629. The recount shall be conducted publicly.
15630. All ballots, whether voted or not, and any other relevant material, may be examined as part of any recount if the voter filing the declaration requesting the recount so requests. No examination of any ballot shall include touching or handling the ballot without the express consent of the elections official or the election officer supervising the special recount board. No ballot may be touched or handled during the examination unless the elections official or the elections officer supervising the special recount is present to observe the examination. Except as provided in this section no ballot shall be touched or handled by any person during the recount unless that person is the elections official, a person acting at the direction of the elections official, a member of the special recount board, or by order of the superior court.
15631. On recount, ballots may be challenged for incompleteness, ambiguity, or other defects, in accordance with the following procedure:
- (a) The person challenging the ballot shall state the reason for the challenge.
 - (b) The official counting the ballot shall count it as he or she believes proper and then set it aside with a notation as to how it was counted.
 - (c) The elections official shall, before the recount is completed, determine whether the challenge is to be allowed. The decision of the election's official is final.

15632. In lieu of the returns as reported in the official canvass, upon completion of the recount showing that a different candidate was nominated or elected, that a different presidential slate of electors received a plurality of the votes, or that a measure was defeated instead of approved or approved instead of defeated, there shall be entered the result of the recount in each precinct affected, which result shall, for all purposes thereafter, be the official returns of those precincts for the office, slates of presidential electors, or measure involved in the recount. If the office, slates of presidential electors, or measure are not voted on statewide, the results of any recount which is not completed by counting the votes in each and every precinct in the jurisdiction within which votes were cast on the candidates for the office, on the slates of electors, or on the measure in question shall be declared null and void. If the office, slates of presidential electors, or measure are voted on statewide, the results of any recount will be declared null and void where there is not recounted each vote cast Statewide for the office, slates, or measure.

Federal Laws

Help America Vote Act of 2002

Key provisions: (1) new voting system standards and funding to acquire new voting systems that enable every voter to vote independently and privately, to review and correct and verify their ballots before casting them.; (2) allow voters to cast a provisional ballot at the polling place even when there is some doubt about eligibility; (3) requires verification of identity when registering to vote for the first time; (4) facilitates voting by military and overseas voters; (5) facilitates the filing of complaints by voters; and (6) creates Elections Assistance Committee to oversee and study election processes. Voting Accessibility for the Elderly and Handicapped Act of 1984 [42 USC 1973ee] generally requires polling places to be physically accessible to people with disabilities for federal elections. Where no accessible location is available to serve as a polling place, a political subdivision must provide an alternate means of casting a ballot on the day of the election. This law also requires states to make available registration and voting aids for disabled and elderly voters, including information by telecommunications devices for the deaf (TDDs) which are also known as teletypewriters (TTYs).

National Voter Registration Act of 1993

(Popular names: Motor Voter Law; NVRA.) The purpose of the Act is to make it easier for all Americans to register to vote and to maintain their registration. It provides for voter registration services while applying for a driver's license, while applying for general assistance or for state-funded public services for the disabled, or by using mail-in forms in a state-approved format. The Act also requires elections officials to take specified steps to maintain an up-to-date voter registration database and to notify voters of their registration status.

Americans with Disabilities Act of 1990

(Popular name: ADA.) To be protected by the ADA, one must have a disability or have a relationship or association with an individual with a disability. An individual with a disability is defined by the ADA as a person who has a physical or mental impairment that substantially limits one or more major life activities, a person who has a history or record of such impairment, or a person who is perceived by others as having such impairment. Title II of the Act provides protections in the state and local government activities.

Voting Rights Act of 1965

Language Minority Groups (LMGs). See §4(f)(4) and §203; interpretations and guidelines are provided in the Code of Federal Regulations (7/1/99 version, Title 28, Chapter I, Part 55, §§55.1- 55.24). The minority language provisions were added to the Act in 1975, and Orange County became a covered jurisdiction under §203(c) pursuant to the July 2002 publication of Census Bureau statistics (67 Fed. Reg. 144, 48871). The language provisions require Orange County to provide election materials and activities in English, Chinese, Korean, Vietnamese and Spanish, in any type of election. Covered activities are defined as "any registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots." The basic purpose is to allow members of the LMGs to be effectively informed of and participate effectively in voting-connected activities.

Voter Bill of Rights
