Julianna,

Thank you for clarifying the Elections Code section. Attached is the revised letter. Since this is a Charter amendment, the proponents are required to obtain signatures equal to 15% of the total registered voters in order to qualify the measure for the ballot.

Best regards,

Hi Lena,

The Registrar is requesting the letter be revised to reflect the required number of signatures based on the Report of Registration from April 3, 2026, which I have attached.

Elections Code section 9210 states that the required number of valid voter signatures is based on the number of registered voters in the City in the ROR immediately preceding the publication of the notice of intention to circulate the petitions.
